The day will also allow you to learn more about the experience of a disability and give you a new perspective on how to recruit people with disabilities.

**STUDENTS AND JOBSEEKERS:** Disability Mentoring Day provides opportunities to learn more about corporations in our community and develop mentor relationships. You will also be exposed to new career paths and learn about target skills for improvement. The goal is for you to leave the day with a greater sense of your own employability and for you to help employers understand how to effectively employ jobseekers with disabilities.
